Breadpig is not a traditional publisher. The majority of the profits of this book are going to the artist, Zach Weiner. And as with all of Breadpig's projects, the company's profits are being donated to a worthy charity. We selected the organization DonorsChoose.org, which makes it easy for anyone to help students in need. For as little as \$1, anyone can help fund a project requested by a public school teacher anywhere in the United States of America. We'll be spotlighting many of the classrooms to which we donate our non-sustainable profits on our website, breadpig.com. Wait until they find out whence those microscopes came...

For support in this publishing venture, breadpig thanks
Marie Mundaca, LeeAnn Suen, and the friends and family
who've always unhesitatingly supported team breadpig.

Even our winged porcine hero couldn't have done it alone. Thank you.

*To my mother and father, Phyllis and Martin Weiner,
for believing in me despite reason, prudence, and good taste.*

Acknowledgments

Thank you to my wife Kelly for enduring the neverending horror that is life with me. Thank you to my managers, Mark Saffian and Josh Morris, for supporting me in hopeless times. Thank you to my longtime good friends, Angel, Chason, Katie, James, and Amanda for reading thousands of bad joke ideas, thereby saving me and the readers from some truly horrible ideas. Thank you to Marty for running all the tech stuff I ever had, going back to the days when SMBC was run off a computer upstairs in his house. That room also used to house our Team Fortress 1 server, but now houses children. I suspect he finds this rather bittersweet.

I have had a great deal of help from fellow cartoonists, but I wanted to give special thanks to the following people: R Stevens, for liking my jokes back when they were terrible. Chris Crosby, for being a neverending font of information. Chris Hallbeck, whose business sense helped more than I care to think. The explosion boys - Rob DenBleyker, Kris Wilson, Matt Melvin, and Dave McElfatrick for being surprisingly friendly despite being a gaggle of degenerate perverts. And, Randy Munroe, for being an intellectual fellow traveler.

OH HEY.

If you're reading this, you hold in your hands the first English language publication of *Saturday Morning Breakfast Cereal*.

You may not be aware, but there once was a short print run of SMBC books in Finnish. I mention this because it may be important to your understanding of the profundity of your personal character. You see, SMBC was published in the Helsinki Metro train line for all of one month before it was canceled due to complaints. Thus, this book (and by association, you) are THFF: Too Hot for Finland.*

Part of why you're THFF may be your reckless financial choices. For instance, you buy books whose content can be viewed online for free. It's part of your wild and brazen nature to read dirty comics and spend tens of dollars as if they were mere fives of dollars.

Nevertheless, you've made a good choice. The comics in this book are a special selection of favorite strips from the ten year history of SMBC. That is to say, you're about to enjoy some vintage Weiner.

And, unlike those who read online, you're privy to a bonus feature found only in this book. Weaved through the pages is a choose your own adventure. At the bottom of this foreword, you'll get your first "block." On the left and right of this block are choices, each of which indicates a page number and a position (top or bottom). Use this information to navigate to the next block, which gives you a picture indicating your previous choice and presents you with more choices.

If you solve for all 64 possible endings, the book will transmute into pure diamond. Unless you got a dud, in which case sorry.

So, sit back, curl up with a glass of wine, and enjoy your Too Hot for Finland comic strips and choose your own adventure book. If I can get wine to spurt out of your nose, I'll consider it a success. If I get wine to spurt out of anything else, this sentence limits my liability for any bodily harm that may result from the reading of anything contained herein.

Your fan,

ZACH WEINER
